

Training for a Career with a Great Future!

APSI Broadband Fiber Optic Certification

The world runs on fiber optic cable. It provides a way to transfer information that is faster and more efficient than regular wire. With digital information increasing everyday, the role of fiber optics will continue to grow, and will provide good jobs for the foreseeable future.

GUILFORD COUNTY JOBLINK CAREER CENTER

Three-week course includes:

- Customer Service & Support ETA Certification
 - Training in human relations! Learn how to positively impact individuals both inside and outside of the business
- Certified Fiber Optic Technician (CFOT)
- Certified Premise Cabling Technician (CPCT)
 - In both of these courses you will learn basic skills necessary to be successful in the broadband industry. Includes: history of telecommunications, various networking technology, new fiber optic technology and how this applies in our economy.
